

**PSY 2440-001**  
**ATTITUDES & PERSUASION**

Paul White  
TuTh 10:45-12:05  
BU C 105

Examines basic psychological theories in attitude formation and change. Issues include attitude measurement, persuasive techniques, and the consequences of attitude change. The class is designed for all majors interested in attitude formation and persuasion (e.g., psychology, communication, marketing, business).

**PSY 3160-001**  
**HUMAN ERROR**

Frank Drews  
TuTh 9:10-10:30  
TBD

Humans today have to deal with more information and respond more quickly, but their errors can be potentially disastrous. Given the increasing saliency of human error in our lives (newspapers, television, personal experiences) this class will address the question of what are the psychological and organizational underpinnings of human error.

\*Pre-requisite: PSY 1010

**PSY 4455-001**  
**INTERGROUP HONORS**

Paul White  
TuTh 2:00-3:20  
BEH S 104

Overview of research and theories of prejudice and stereotyping. Honors students will explore prejudice & stereotyping issues from an interdisciplinary approach, learn more about the research methodology used in examining prejudice & stereotyping, & propose a research project investigating prejudice & stereotyping.

\*Honors College students only

**PSY 5410-001**  
**ADV. SOCIAL PSYCHOLOGY**

Carol Sansone  
W 2:00 -5:00  
BEH S 113

Survey of theories and research in social psychology. Briefly covers historical and current perspectives on a range of topics, which may include self, person perception, attitudes, attributions, close relationships, social influence, group conflict, etc.

Honors students can take this course for an elective, as well as qualified non-honors students.

\*Pre-requisites: PSY 1010, PSY 2500, Permission code

**PSY 4890-079**  
**PSYCHOLOGY INTERNSHIPS**
