

**Bruce Ellis**  
**Service Statement**

Service is an essential part of my role as academic and occupies a significant amount of my time.

University Service

1. I actively and constructively participate in committee assignments as delegated by the chair and dean. During the current review period, this has included the following:

2020	Reviewer for CSBS UROP applications.
2018-Present	Member, <i>Research Advisory Committee</i> , College of Social and Behavioral Sciences
2016-Present	Co-Director, <i>Developmental Adaptations, Stress, and Health</i> (DASH) research collaborative, Consortium for Families and Health Research.
2016-present	Member, <i>Executive Committee</i> , Consortium for Families and Health Research
2018-2019	Member, <i>Retention, Promotion, and Review (RPT) Policy Analysis Committee</i> , University of Utah.
2017-2019	Member, <i>Personnel Committee</i> , Department of Psychology.
2016-2017	Member, <i>Executive Committee</i> , Department of Psychology

2. I consistently contribute to faculty shared-governance activities, including regular attendance at department meetings (in person or electronically) and area-specific (i.e., developmental) meetings.

Community Service

In the Hidden Talents Lab, we conduct research in partnership with the Boys and Girls Clubs of Greater Salt Lake and the Jordan School District. The clubs in particular serve a high-poverty population. As part of our involvement, our research assistants volunteer at the clubs where we collect data (e.g., providing homework help, helping to serve dinner). In addition, we organize tours of the University of Utah for club members. Members of my lab accompany these tours, provide lunch for the club members, and discuss activities in our lab.

National Service

3. I have an active role as an editor at *Development and Psychopathology*. Specifically, I am currently serving as the Lead Editor (with Katie McLaughlin) for a

special issue of *Development & Psychopathology* on “Dimensions of early experience and adaptive and maladaptive development.” Publication date: Spring, 2022. This Special Issue includes 30 articles, all of which I am involved in editing.

4. I regularly serve as an ad hoc reviewer for various scientific journals. During the current review period, I have served as a peer-reviewer for 27 journal articles for the following journals: *Appetite*, *Child Development Perspectives*, *Development and Psychopathology*, *Developmental Psychology*, *Developmental Review*, *Developmental Science*, *Evolution and Human Behavior*, *International Journal of Psychology*, *Journal of Personality and Social Psychology*, *Perspectives on Psychological Science*, *Proceedings of the Royal Society: Biological Sciences*, *Psychological Bulletin*, and *Psychological Science*.

5. During the current review period, I have served as an external reviewer on 4 tenure/promotion cases.

6. During the current review period, I served as a one-time participant on two grant review panels: The Reversibility Network--National Institute on Aging, 2020; United States-Israel Binational Science Foundation, 2019.
